Submitted by:

National Board of Directors of Girl Scouts of the USA and Girl Scout Council of Central and Southern New Jersey**

Recommendation of the National Board:

The National Board recommends **adoption** of the proposal.

Rationale for Recommendation:

The cost of organizing and delivering Girl Scouting is increasing. While all program is based on the Girl Scout Leadership Experience, the methodologies of program delivery and related costs differ from council to council. This proposal, giving councils the flexibility of charging a general program fee, will help councils meet the wide-ranging needs of girls and offset the increasing cost of providing a full spectrum of program opportunities for girls.

This proposal amends the *Blue Book* policy entitled "Council Authority and Responsibility." It provides councils, for the first time, with the option of assessing a general program fee to help cover costs related to the administration of Girl Scout program for girls. This is a general program fee, not to be confused with event-related program fees that councils may charge for specific event-related programs such as various camp, series, event, or travel programs.

The general program fee can be determined by the council but cannot exceed the cost of the full-year, annual Girl Scouts of the USA membership dues in effect in the Girl Scout year that the fee is charged. If a council chooses to charge a general program fee, it must be consistently charged to all girl members at the time of registration. Additionally, councils charging a general program fee must provide financial aid so that general program fee is not a deterrent to girl enrollment. Councils can charge general program fees beginning in October 2012.

Councils are not required to charge a general program fee. If they do, the fee must be consistently charged to all girl members at the time of registration. General program fees could differ from council to council. Councils need to be prepared to handle questions should fees differ across jurisdictional lines.

Any general program fee charged by the council would not be considered part of the council's fund-raising efforts or family solicitation campaigns and as such would not be tax deductible. Just as councils seek donations to cover GSUSA membership dues for low-income families, external donations could be sought to subsidize general program fees, creating an opportunity to generate philanthropic support to offset costs.

Footnotes

Footnotes will be added to the *Blue Book of Basic Documents* to define the general program fees, maintain clarity regarding the difference between Girl Scouts of the USA membership dues and general program fees, and to explain that general program fees are to be applied uniformly to all girls at the time of registration.
